

# Glass Cooking Surface Stoves

*Glass stove cooking surfaces are a great addition to cookery. However, just like older ranges, there are “boil overs”. The residue forms an ugly crust on the cooking surface and become very hard to remove.*

*Diamond Magic® removes these boil over crusts with little or no effort, far faster than other products available.*

*Diamond Magic® generally takes one minute to give you a scratch free and highly polished finish to your glass top cooking surface. Diamond Magic® is safe, fast, and easy to apply.*

**Caution:** Though Diamond Magic® is strong enough to remove the toughest stove top stains, it might remove the fragile decals .
