

Truck and Bus Mirror Housings

Every large truck and bus has large sideview mirrors, and most have "fish eye" mirrors to overcome blind spots of view.

The flat rear encasement for the mirrors are generally made from stainless steel. These mirrors hit foul weather head on. Rain, snow and sleet slowly oxidizes the stainless steel housing.

Just look at how this rusty mirror housing becomes a mirror itself. Diamond Magic®, the diamond dust difference.

It Works! Believe Your Eyes!
