

# Swimming Pool

*There is nothing like the enjoyment of swimming in your own pool. But with the joy of use, your pool requires lots of maintenance of the water condition, and the cleaning of the evaporation ring around and above the water level. Those chemicals that you use to keep the proper balance of water quality along with dust leaves a mineral residue ring around the pool. These trace mineral deposits over time become very hard to remove. Diamond Magic® will remove the mineral deposits with ease, in very little time.*

*Chrome ladders and other chrome pool fittings have the same chemical mineral residue as the walls of the pool. Diamond Magic® will also clean the mineral residue of the evaporated water from the lawn sprinklers around your pool. Diamond Magic® removes the mineral stains and spots from the chrome pool fixtures. Safe, fast and easy!*

**It Works! Believe Your Eyes!**
